	<u>Brainstorm</u>
Achievement Objective	Technological Practice – Brief Development - Level 4 *Justify the Nature of an intended outcome in relation to the need or opportunity. Describe the key attributes identified in stakeholder feedback, which will inform the development of an outcome and its evaluation.*
Learning Intention	I am learning... to describe my technological outcome using attributes
Activity Instructions	1. Scaffold student learning by working through a known example of a product prior to using individually. 2. The name of the technological outcome to be produced goes in the centre. 3. Students either individually, or in groups answer the questions about their intended outcome. 4. Justify your answers. 5. Share with group / peer to critique answers.
Teacher Notes	• Brainstorm categories adapted from an ESOL resource aimed at extending / developing student's ability to describe objects that they may not be familiar with. • This activity could also be used to introduce the concept of physical and functional attributes.
