

My Technological Modelling

Achievement Objective

Technological Knowledge - Technological Modelling - Level 2

Understand that functional models are used to explore, test, and evaluate design concepts for potential outcomes and that prototyping is used to test a technological outcome for fitness of purpose.

Learning Intention

I am learning... that my technological modelling helps me explore, test, and evaluate my design ideas

Activity Instructions

1. Students can draw (or even glue in) the functional modelling they did (e.g. drawing, circuit diagram, testing results, mock-up)
2. This model tells me...?
3. From doing this model...?

Teacher Notes

This activity was created by Jan McEwan, Rosehill Intermediate School.

My Technological Modelling

		This model tells me...	From doing this model I have learnt...
